

charity: water

charity: water is a nonprofit organization bringing clean and safe drinking water to people in developing countries. With a radically transparent model that sends 100% of public donations straight to the field, charity: water funds sustainable water projects in areas of greatest need and works with local partners to implement them. The organization proves every project, using innovative technology and powerful storytelling to connect donors with their impact. Since 2006, charity: water has funded more than 28,000 water projects in 26 countries around the world bringing clean water to more than 8 million people.
